

STAMINA: ZONE HIGHOUTPUT

Stamina Zone Highoutput is a versatile and durable emergency light that is designed to be used outdoors in demanding industrial environments, such as tunnels, carports, garages, and loading platforms. Wherever there’s a need for a stylish but sturdy luminaire to withstand cold and rough conditions, Stamina is the best choice for you.

Stamina has an impact resistant cast aluminium body (IK10) and it is dust- and waterproof (IP65). Stamina’s standard colour is graphite grey (RAL 9007). On request, it is also possible to have Stamina in any RAL-colour you like to match the surrounding environment. Stamina can also be used for general lighting.
