

Slimspot II is a recessed **emergency light** that is effective and seamless. It has an elegant and minimalist appearance, so it blends in with the surroundings and architecture.

# Slimspot II

**Teknoware Slimspot II is an effective and seamless emergency light.**

Slimspot II is a recessed emergency light that is effective and seamless. It has an elegant and minimalist appearance, so it blends in with the surroundings and architecture. The broad Slimspot II product family and range of optics offers many options to suit a variety of applications and systems. Slimspot II is designed for indoor lighting, and it has durable metal framing. The standard colour of the luminaire is white. On request, it is also possible to order Slimspot II in black and grey to match the surrounding environment.

Please notice that Slimspot II always consists of two units: luminaire and a separated electronic unit, 900mm supply cable between the units also includes.

## Elegant

Minimalistic and classical style, with a clear look.

## Designed for the Indoor Lighting

Frame is durable metal and it has an IP20-rating.

## Square or Round

Choose the look that best suits your use.

## Wide Range of Optics

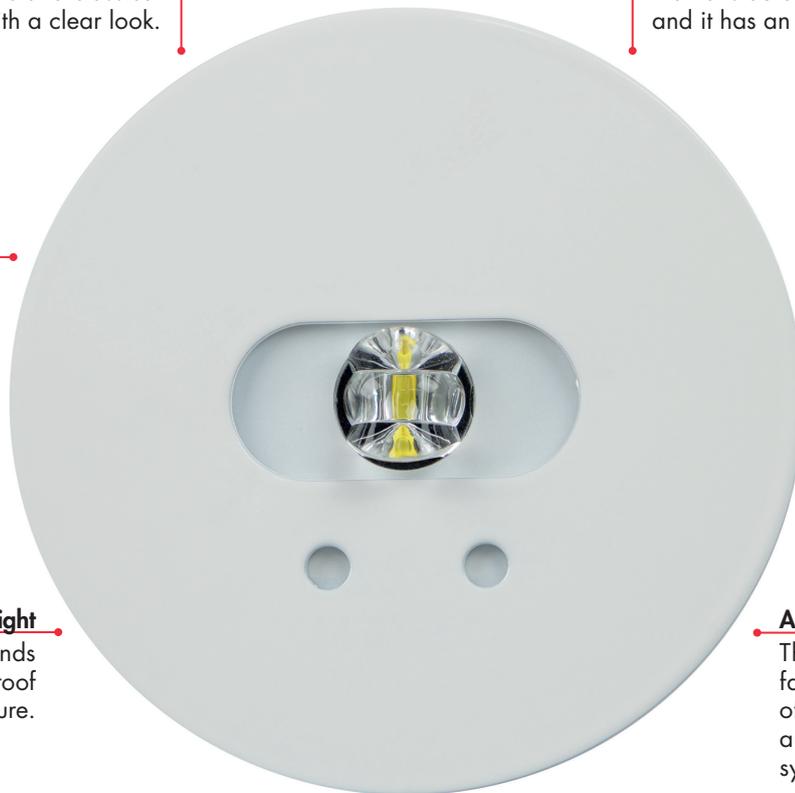

Optimal emergency lighting for open areas and escape routes from up to 10 meter's high areas.

## Seamless Emergency Light

Recessed, so it blends seamlessly into the roof structure.

## A Comprehensive Product Family

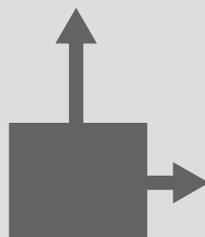

The broad Slimspot II product family and range of optics offers many options to suit a variety of applications and systems.

## FACTS IN BRIEF

**SMALL AND SEAMLESS**

**PHASE CONTROL IN P-MODELS**

**A COMPREHENSIVE PRODUCT FAMILY**

**A WIDE RANGE OF OPTICS**

# Light Distribution Tables

## Emergency Lighting for Escape Routes (Ceiling Mounting)

- Table of 1 lux for escape routes in the middle line according to the norm EN 1838.
  - Level of measurement 0.02m, measurement result with battery operation.
- R1 distance from wall (X axis)  
R3 installation distance between lights (Y axis)  
R4 distance from wall (Y axis)

### Slimspot II: Line Lowbay

# Light Distribution Tables

## Emergency Lighting for Open Areas (Ceiling Mounting)

- Table of 0,5 lux for open areas according to the norm EN 1838, 0.5m edge district is considered in the table.
  - Level of measurement 0.02m, measurement result with battery operation.
- R1 distance from wall (X axis)  
 R2 installation distance between lights (X axis)  
 R3 installation distance between lights (Y axis)  
 R4 distance from wall (Y axis)

## LET THERE BE CONFIDENCE.

People tend to take the presence of light for granted. We take it seriously. By creating the perfect solutions for our customers' needs, we offer solutions that increase the comfort, functionality and safety of their applications. Our passion is to design and manufacture interior and lighting solutions for public transportation vehicles and emergency lighting systems for buildings and cruise ships.

Our roots are in Finland, where our head office and largest production facilities are located. We also have production units in the UK, Malaysia, Poland and the USA, and we employ about 600 experts in eight different countries. Our global sales network serves our customers in more than 30 countries.

Teknoware is part of the Teknower Group.

**Teknoware – Made in Finland.**
